Science

Discuss what your home is like. How many rooms does it have?

Do you have a garden? Does it have stairs?

If you can get out and about, look and discuss the different types of houses – terraced, detached, flats etc, otherwise look on the internet, in books etc.

Draw a picture of your house, what colour door do you have?
What number do you live at?

Research different types of homes around the world, eg Homes in Africa, Antarctica etc. How are they the same/different to homes here?
